### Our tea menu

#### Jasmine pearls green tea

Very delicate green tea with a light, floral, refreshing, natural jasmine taste. In need of relaxation and detox. Like all teas, this is bursting with antioxidants - the good guys that help keep us young and healthy

#### Japan sencha green tea

This light and refreshing tea is prepared in Kyoto from the season's first tender young leaves harvested at their peak of flavour in late spring. The leaves are briefly steam, rolled and cooled by the special Japanese Sencha process. Then immediately packed to seal in their fresh taste and aroma.

#### Earl grey tea

A cup of Earl Grey to keep the doctor away: Fruit extract can help you lose weight, lower cholesterol and prevent diabetes

#### Peppermint tea

Peppermint has been proven to have some fairly amazing health and beauty benefits. From the tips of your hair to the tips of your toes and everything in between, let peppermint tea bestow its healing powers on you

#### Willow stream decaffeinated

5 star decaf from Malawi's top tea estate. Produced at a small cooperative estate, and decaffeinated at the green leaf stage

#### Lemon rooibos

Rooibos tea is high in an array of different antioxidants that may slow aging and help prevent disease. It also contains nine essential minerals, which can help optimize body function during detoxification
